

## First Peoples of Canada Assignment

Directions: In groups of two or three choose one of the seven first peoples of Canada. Your presentation should be no less than 5 minutes and no more than 10 minutes long. Video can be used from either YouTube or Discovery Education if you wish. I do require you to have made notes to assist you in your presentation. If you are using paper please write or type them out, both Keynote and PowerPoint have built in presenter notes. Good presentations will focus heavy on graphics with minimal words on the slides. (Titles and captions) Words will be mostly on the presenter notes. I will let you choose your own partners but for this assignment there cannot be any groups of one or four. Your choices are:

**Northwest Coastal People**

**Plateau People**

**Plains People**

**Eastern Woodland Hunters**

**Eastern Woodland Farmers**

**Subarctic People**

**Inuit**

You can choose to create a Power Point with one of the classroom PC's, a Keynote on your iPad tablets or a good old fashioned bristol board project.

Requirements: Your presentation must contain slides on the following:

- 1) A map of Canada showing where your first nation existed before European contact.
