

Forecasting the Weather
Webquest

Lesson 2

Terminology Introduction and review. (60 Minutes)

How do meteorologists forecast the weather? This web quest will allow students to explore air masses, fronts, weather stations and weather forecasts. They can work in groups of two or three students but no more. Students will follow the links for each question and write down their responses on the [Forecasting the Weather Webquest](#). This sheet is also available online on our class website at: <http://grade5eisnor.weebly.com/weather-pbl-project.html> or on the class Moodle under Science: Weather.
